

## **Reflux Desktop Client. Update v3.9.0.7**

Version Update Importance: **HIGH PRIORITY**

### Bug Fixes:

1. Sound alerts now included
1. In the release earlier today, we did not include the sound files, hence whichever file you chose for the audio alert would not play.

This is a free upgrade and will roll out automatically next time you start Reflux. Stay updated with our new features by subscribing to the RSS feed.

**Note: After the update, remember to select your printer again or your orders may not print. From Reflux, go to "File" =>"Change Printer" then select your printer from the list and click "save"**
